## Make Taskbar Clock Show Seconds in Windows 10

You can make the taskbar clock show seconds in Windows 10. With a simple Registry tweak, this is possible. By default, the Taskbar only shows time in hours and minutes.

**RECOMMENDED:** [Click here to fix Windows errors and optimize system performance](#)

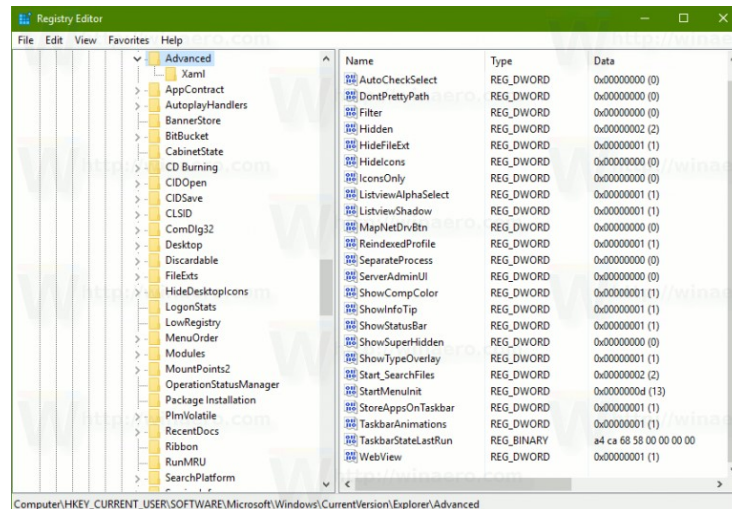

The ability to show seconds on the taskbar clock is available starting with Windows 10 build 14393. I tested a virtual machine of the stable branch and it started working only with Windows 10 Anniversary Update version 1607.

To **make taskbar clock show seconds in Windows 10**, you need to do the following.

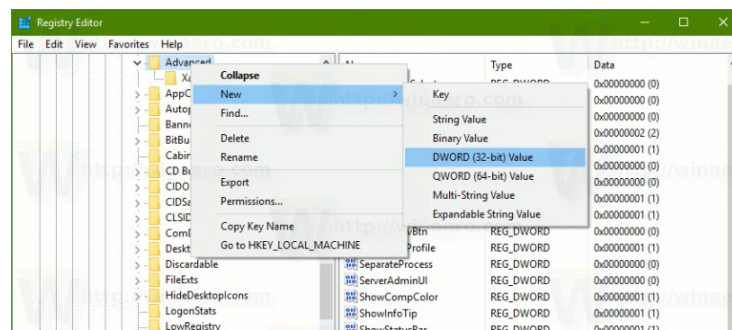

1. Open [Registry Editor](#).
2. Go to the following Registry key:

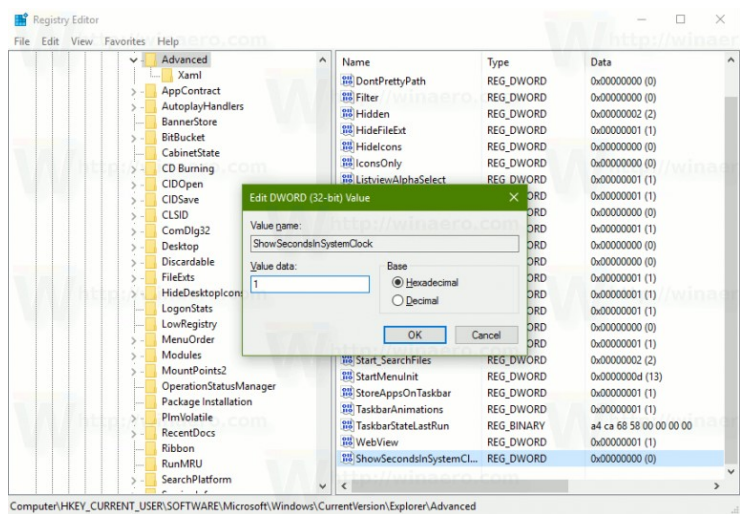

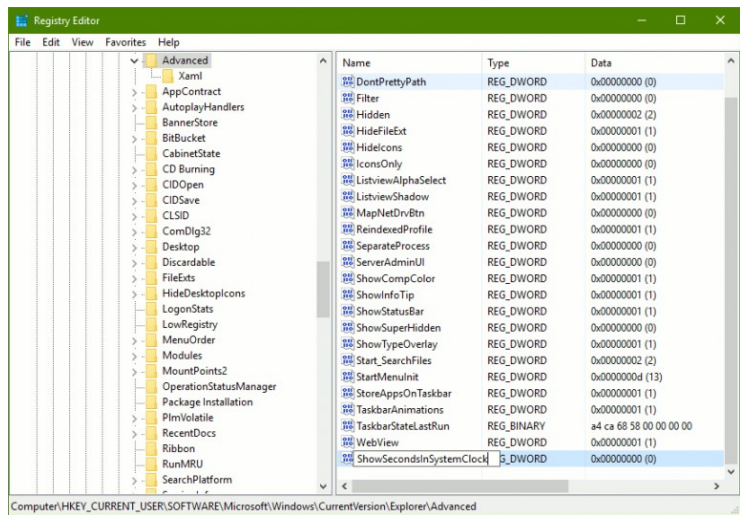

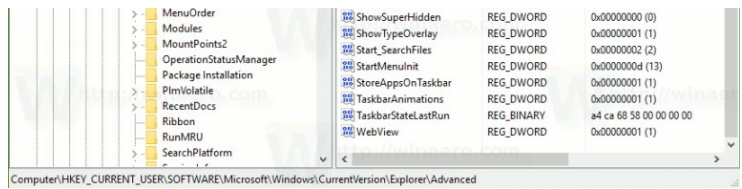

```
HKEY_CURRENT_USER\SOFTWARE\Microsoft\Windows\CurrentVersion\Explorer\Advanced
```

Tip: [How to jump to the desired Registry key with one click.](#)

3. Here, create a new 32-bit DWORD value named `ShowSecondsInSystemClock`. Set its value data to 1. Note: Even if you are [running 64-bit Windows](#) you must still create a 32-bit DWORD value.

4. Now, restart Explorer or sign out and sign in back to your user account

The taskbar clock will have seconds:
